

Introducing the Froet Drain[®]

**The Froet Drain
is the most
dramatic
innovation in the
drain market today**

- Considerable Labor Savings
- Cast Iron Construction
- Powder Coat Finish
- Corrosion-Resistant hardware
- No-Hub Connections
- Extra Wide Clamping Ring
- Only One Roof Penetration
- Multiple Position Overflow Inlet
- Conforms to ANSI A112.21.2
- Simplifies the Adding of Overflow Drain to Existing Roofs
- Simplifies Roof Drainage Design
- Quality Construction for Decades of Service
- US Patent # 6594966
- UPC Listed

US Patent #6594966

The industries only Bi-Functional Roof Drain designed to solve today's drainage problems

No more ponding water or multiple penetrations for overflow protection
